Islander Email Setup-Android

For Android version 6 or later, use the following instructions. For all previous versions, please follow the IMAP instructions on page 2. The menus may vary depending upon Android Version.

1. From the Applications menu, select Email. This application may be named Mail on some versions of Android.

2. Type your full email address and your IslandID password, and then select Next.

3. Select Exchange account. This option may be named Exchange ActiveSync on some versions of Android. You may be prompted to allow the server to remotely control some features of your device, click OK.

4. Your device will then attempt to automatically configure your email settings. If successful, click Next. If your device did not automatically configure your network settings, proceed to step 5. You device may ask whether or not you want to allow the server to access your phone settings. If prompted, please click Activate. Type a name for your account and click Done.

5. NOTE: On some versions of Android, you must use the domain\username format. For example, TAMUCC\IslandID@islander.tamucc.edu.
   - If Domain and Username are separate text boxes in your version of Android, leave the Domain box empty and type your full email address in the Username field.
   - Use the password that you use to access your IslandID account. For the server, type outlook.office365.com.

Set up IMAP email on an Android

1. From the home screen, tap Applications>Settings>Accounts>Add account >Manual setup.

2. On the Incoming settings screen, in the Protocol drop-down menu, select IMAP.

3. In the email address and username text boxes, type your full e-mail address and your IslandID password, and then select Next. Your username is your email address.

4. In the password field enter your IslandID password and fill out rest of the form as follows:

   **Outgoing Server**
   Server: smtp.office365.com
   Port: 587 TLS or TLS (Accept All Certificates
   User Name: IslandID@islander.tamucc.edu

   **Incoming Server**
   Server: outlook.office365.com
   Port: 993 SSL or SSL (Accept All Certificates
   User Name: IslandID@islander.tamucc.edu

5. Type a name for your account and then select Finish Setup.
