

## Installing Software using the Software Center – Windows

The Software Center is an application loaded on every University workstation that allows a user to install approved software at their convenience. Some standard applications will be automatically available while others will need to be requested by submitting a ticket with IT at [ITRequests@tamucc.edu](mailto:ITRequests@tamucc.edu). The following steps will walk you through installing programs using the Software Center:

1. Click the **Start** button, **All Programs** (or **All Apps** if using Windows 10)>**Microsoft System Center**>**Configuration Manager**>**Software Center**

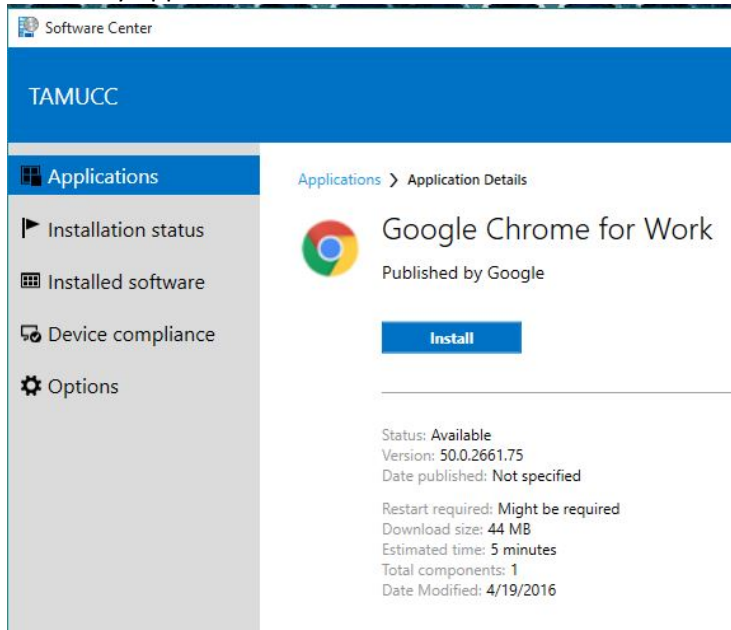

2. All available software can be managed by selecting the **Applications** tab.

## Installing Software using the Software Center – Windows

3. Select any application for version details and click the **Install** button to begin the installation.
